Changes made to Original Oberon for Continuous Fractional Line Scrolling

Andreas Pirklbauer, 12.12.2015

Name:	Continuous Fractional Line Scroll, Edition 12.12.2015 (later adapted for Experimental Oberon)
Description:	Pixel-by-pixel scrolling of displayed texts, both the top and the bottom line can be fractional
Modified files:	`Display.Mod, TextFrames.Mod, MenuViewers.Mod`
Number of new lines:	**~200** (relative to Original Oberon)

```
